

# Professor Nilmini Wickramasinghe

---

**Director Health Informatics Management, Epworth Health Care & Deakin University, Australia**

Professor Nilmini Wickramasinghe (PhD, MBA, Grad DipMgtSt, Bsc, AMusA (violin) AMusA(piano)) received her PhD from Case Western Reserve University, USA. She researches and teaches within the information systems domain including knowledge management, IT and strategy, change management, decision making and e-business with particular focus on the applications of these areas to healthcare. Her research work focuses primarily on developing suitable models, strategies and techniques grounded in various management disciplines to facilitate more effective design, development and implementation of IS/IT solutions to effect superior, patient centric healthcare delivery. She has collaborated with leading scholars at various premier healthcare organizations throughout US and Europe. She is well published with more than 200 referred scholarly articles, more than 10 books, numerous book chapters, an encyclopedia and a well-established funded research track record. Her unique real time multi-language electronic patient record system won the prize for best invention in the State of Illinois in 2009. In addition, she is regularly invited to present her work throughout North America, as well as in Europe and Australasia.

Professor Wickramasinghe is the U.S. representative of the Health Care Technology Management Association, the editor-in-chief of two scholarly journals published by InderScience and the book series editor for Healthcare Delivery in the Information Age published by Springer. She is also is a founding minitrack chair at AMICS, and is instrumental in initiating the healthcare IS track at PACIS in 2010. Professor Nilmini Wickramasinghe took up the position of Professor of Information Management and Library Science at RMIT University's School of Business IT & Logistics as of 13th December 2009 after spending 15 years in academia in the US. As of 1st July 2011 she has been named the Epworth Chair Health Information Management.
